 Lagos, Nigeria

PERSONAL PROFILE

Innovative and proactive frontend developer successful developing elegant, ground breaking website and application designs for demanding clients. Talented in project management, team leadership and independent problem-solving. Highly organized multitasking with expertise in scheduling projects, enhancing designs and verifying code. Use various web design packages to develop custom-crafted, customer-focused websites and designs.

WORK EXPERIENCE

Frontend Web Development

- Developed new user-facing features, determining the structure and design of web pages.
- Built reusable codes, optimizing page loading times using JavaScript, and using a variety of markup languages to create the web pages using HTML5 and CSS3.
- Familiarity with browser testing and debugging.
- Cooperated with Back-end developers and other team members to design more cohesive and functional code.
- Authored code in JavaScript within Node.js which is a JavaScript run time environment.
- Developed server-side logic in JavaScript
- Integrated UI/UX design with CSS pre-processing platforms (SASS)
- Client-side scripting and JavaScript frameworks, including jQuery
- Good understanding of asynchronous request handling, partial page updates, and AJAX
